Certificate of Chain of Custody

The integrity checks below passed at the time of issue: the stored file matches its acquisition hash, and every audit log entry's hash, link and signature verified.

Evidence ID	1
Case	2026-117: Seized laptop
Description	suspicious.exe from laptop
Original filename	suspicious.exe
Size	1025056 bytes
Acquired by / at	alice / 2026-10-10T16:47:35.552037+00:00
Current custodian	bob
SHA-256 (acquisition)	`4ea1e741acc138736dc1a31622cd8bef6d20dac56bd81c11ef01f25d6ec36e7d`
SHA-256 (now)	`4ea1e741acc138736dc1a31622cd8bef6d20dac56bd81c11ef01f25d6ec36e7d`
File integrity	PASS
Audit chain	PASS (51 entries, 1 anchor)
Audit log head	`entry 51: 73c88116bcd3a91864379fc62edb3803fbd16185e0b28818b47050e846c8de7c`
Signing key ID	`2da3855c2578f66c (Ed25519; public key at /public-key.pem)`
Issued by / at	rita / 2026-10-10T16:47:36.596725+00:00

To check this certificate later, upload it at /certificates/verify (or run `flask verify-certificate FILE`*): the SHA-256 of this exact PDF is recorded in a signed certificate.issue audit entry, which is then anchored outside the database. Also confirm the evidence file's SHA-256 still matches the value above.*
